Nalagatla Sai Varshitha

+91-9347992938 | nvarshithar2005@gmail.com | github.com/Varshitha100305

PROFESSIONAL SUMMARY

Computer Science graduate (B.E., RMD Engineering College) with hands-on experience building Python-based NLP applications using Streamlit and Hugging Face Transformers, and an RFID/IoT inventory tracking system integrated with cloud services. Completed cloud infrastructure and cybersecurity log-analysis work through internship and simulation experience. Holds IBM, AWS, and Oracle AI/cloud certifications. Seeking an entry-level AI/ML, Python developer, or data analyst role.

TECHNICAL SKILLS

Languages: Python, SQL
AI / ML: Natural Language Processing (NLP), Hugging Face Transformers, Machine Learning, Prompt Engineering
Cloud & IoT: Cloud Storage & Security Fundamentals, AWS, Arduino, RFID, Blynk
Data: Data Collection & Organization, Log Analysis, Microsoft Excel, Google Sheets
Tools & Frameworks: Streamlit, Git, GitHub, Google Colab, VS Code

TECHNICAL PROJECTS

Interview Copilot | *github.com/Varshitha100305/interview_copilot*
Python, Streamlit, Hugging Face Transformers, NLP

- Built a Streamlit-based mock interview application that uses Hugging Face transformer models to analyze user responses and generate context-aware interview replies.
- Designed the response workflow and feedback generation logic to give candidates structured, actionable feedback on their answers.

Cloud-Enabled RFID Inventory Tracking System for Healthcare Supply Chains
Arduino, RFID, IoT, Blynk, Cloud

- Developed an RFID and Arduino-based inventory tracking system that logs healthcare supply movement and syncs it to the cloud through Blynk for real-time monitoring.
- Structured the data flow between hardware and cloud components and documented the integration to support debugging and future scaling.

WORK EXPERIENCE

Cloud Computing Intern | 8 Queens Technology | Chennai, Tamil Nadu — May 2025 – Jun 2025

- Worked with cloud infrastructure and storage services, and studied cloud security practices used in deployed systems.
- Learned the fundamentals of deploying and implementing cloud-based systems as part of hands-on training.

Cybersecurity Job Simulation | Deloitte (Virtual, via Forage) | Remote — Sep 2025

- Analyzed web activity logs to identify suspicious user behavior and potential unauthorized access.
- Investigated simulated security breach scenarios and recommended mitigation actions.

EDUCATION

RMD Engineering College | Kavaraipettai, Tamil Nadu — Oct 2022 – Jun 2026
Bachelor of Engineering in Computer Science | CGPA: 8.51

Narayana Junior College | Nellore, Andhra Pradesh — 2020 – 2022
Higher Secondary Education | 82.2%

CERTIFICATIONS

- IBM: AI Fundamentals
- AWS: Data Engineering Foundations
- Oracle: Cloud Infrastructure AI Foundations Associate
- HackerRank: Python & SQL
- Great Learning: Prompt Engineering for ChatGPT
